2015 - 2018

Diploma_Electrical & Electronics Engineering (EEE) (74.0%)

Zpp Boy's High school , G.Mamidada (East Godavari)

2014 - 2015

Secondary School Of Certificate (88.0%)

Project

Tasty Kitchens (Swiggy/Zomato Clone)

[project1_link](#)

Technologies used : HTML, CSS, JavaScript, React JS, Bootstrap, React Slick, Figma, client storage.

Constructed an engaging Online Food Ordering Service akin to Swiggy/Zomato, enabling users to discover top restaurants, obtain in-depth restaurant details, manage their cart, and process payments.

- Set up unique routes for features such as login, home screen, individual restaurant data, and cart management using React Router components (Route, Switch, Link).
- Incorporated a fluid horizontal scrolling capability (carousel images) on the home screen with the help of the React Slick library.
- Developed visually striking and exact React components by following Figma mockups and using REST APIs to fetch popular restaurants and specific restaurant information.

Nxt Watch

[project2_link](#)

Technologies used : React JS, JavaScript, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.

Developed the Nxt Watch platform, a YouTube-inspired application where users can access various video categories, such as Trending, Gaming, and Saved videos, and search for specific content while customising the visual theme.

- Crafted a responsive UI with React components for pages like Login, Home, Trending, Gaming, and Saved videos, utilising event handlers and form inputs.
- Established user authentication through username/password input and HTTP API calls, maintaining login state with JWT tokens and local storage.
- Enabled secure navigation using React Router components for protected routes, redirecting unauthenticated users to the login page.

Todos Application

[project3_link](#)

Technologies used : HTML, CSS, JS, Bootstrap

A task management solution, designed to make life easier.

- Streamlined task management through a combination of HTML, CSS, and Bootstrap for an intuitive interface.
- Seamless CRUD operations through JavaScript event listeners and dynamic UI updates.
- Secure task persistence with local storage methods, ensuring that your tasks are always available.

E-Commerce

[project4_link](#)

Technologies used : React.js, Node.js, SQLite

we can create multiple accounts with different name's, the user product cart should be unique and we can create an admin account, admin can handle the add the product, delete the product, update the product, and create the product.

Payorch Technologies (Platform Engineer)

May 2024 - May 2025

Hyderabad, Telangana

UIDeveloper with hands-on experience in JavaScript, React.js, and web development. Over the past several months, I've worked on real-world projects where I contributed to building responsive and user-friendly web applications. I'm comfortable writing clean, maintainable code and enjoy learning new tools and technologies to improve my skills. Looking to grow as a front-end developer by taking on new challenges and building great user experiences.
