Diploma_Electrical & Electronics Engineering (EEE) (74.0%)

Zpp Boy's High school , G.Mamidada (East Godavari)

2014 - 2015

Secondary School Of Certificate (88.0%)

Project

Tasty Kitchens (Swiggy/Zomato Clone)

[project1_link](#)

Technologies used : HTML, CSS, JavaScript, React JS, Bootstrap, React Slick, Figma, client storage.

Implemented a responsive Online Food Ordering System like Swiggy/Zomato where users can see popular restaurants with sort by rating, specific restaurant details, adding or removing food items to cart, and payments section.

- Implemented different routes for features like login, home, specific restaurant details, cart by using React Router components Route, Switch, Link.
- Implemented horizontal scrolling (carousel images on the home page) using React Third Party library called React Slick.
- Used Figma mockups to implement UI-rich and pixel-perfect React components.
- Used fetch to call REST APIs for popular restaurants with sort by, specific restaurant details.

- Implemented username and password authentication and persisted login state using client storage.
- Implemented a protected route to ensure only authenticated users can access the pages like home, specific restaurant details, etc.

Nxt Watch

[project2_link](#)

Technologies used : React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Implemented Nxt Watch application which is a clone for YouTube where users can log in and can see a list of videos like Trending, Gaming, Saved videos, and also can search videos and view specific video details, and users can toggle the theme (Light/Dark).

- Implemented Different pages like Login, Home, Trending, Gaming, Saved videos using React components, props, state, lists, event handlers, form inputs.
- Authenticating by taking username, password and doing login post HTTP API Call.
- Persisted user login state by keeping jwt token in local storage, Sending it in headers of further API calls to authorize the user.
- Implemented different routes for Login, Home, Trending, Gaming, Saved videos, Video item details pages by using React Router components Route, Switch, Link.
- Redirecting to the login page if the user tries to open Home, Trending, Gaming, Saved videos, Video item details routes which need authentication by implementing protected Route.

Todos Application

[project3_link](#)

Technologies used : HTML, CSS, JS, Bootstrap

Developed persistent todo application with CRUD operations to track list of tasks

- Displayed list of todos with HTML list elements, styled todo list using CSS, Bootstrap
- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.

My Portfolio (mern) project

[project4_link](#)

Technologies used : CSS, React.js, Node.js, SqLite, Express.js

The My Portfolio project is a full-stack MERN (Sqlite, Express.js, React.js, Node.js) application designed to showcase personal and professional details such as projects, skills, and experience.

It includes a secure Admin Panel that allows the portfolio owner to manage all content dynamically, without editing any code.

Admin Dashboard:

1. Admin can log in securely to manage portfolio data.
2. Perform complete CRUD operations (Create, Read, Update, Delete).
3. Projects – add new projects with title, description, image, and links.
4. Technical Skills – add, update, or remove frontend/backend skills.
5. Experience & Personal Details – update work experience, education, and bio.
6. All changes automatically reflect on the public portfolio in real time.
7. Public users can view all projects, skills, and experience, and download the Cv.

Contact Section

1. Visitors can send messages directly through the contact form.
2. Admin receives the submitted messages instantly (via email).

Payorch Technologies (Platform Engineer)

May 2024 - May 2025

Hyderabad, Telangana

UI Developer with hands-on experience in JavaScript, React.js, and web development. Over the past several months, I've worked on real-world projects where I contributed to building responsive and user-friendly web applications. I'm comfortable writing clean, maintainable code and enjoy learning new tools and technologies to improve my skills. Looking to grow as a front-end developer by taking on new challenges and building great user experiences.
